

Sheet Music Library - Edge Case Tests

This document provides a series of tests to verify the rendering of edge cases in the sheet music library. Each test focuses on a specific aspect of music notation that may present challenges in rendering, as well as specific examples of buggy outputs provided from other developers.

Test 1: Dotted Note and Last 16th Note

Test 2: Multi-System First Ending with 8va, 15ma, Chords, and Fingerings

Test 3: Nested Tuplets Inside Opposing Voices

Two staves of music in 6/8 time. The top staff features a triplet of eighth notes, a quarter rest, and a half note. The bottom staff features a half note, a quarter rest, and a triplet of eighth notes. The notation is designed to test the rendering of nested tuplets in opposing voices.

Two staves of music in 4/4 time. The top staff contains a series of dense chords with accidentals (sharps and flats) and a slur. The bottom staff contains a series of dense chords with accidentals and a slur. The notation is designed to test the rendering of dense chords with accidentals, slurs, ties, and text stacks.

Test 5: Inline Clef and Meter Changes Under Manual Spacing

Two staves of music. The top staff starts in 5/8 time, changes to 7/8, and then to 3/4. The bottom staff starts in 4/4 time, changes to 3/4, and then to 2/4. The notation is designed to test the rendering of inline clef and meter changes under manual spacing.

Test 6: Grace Bursts, Slashes, Markers, and Hairpins

Two staves of music in 4/4 time. The top staff contains a series of notes with grace bursts, slashes, and markers. The bottom staff contains a series of notes with hairpins. The notation is designed to test the rendering of grace bursts, slashes, markers, and hairpins.
